

# COVID-19 Vaccine Collection

Bring back your employees  
safely and efficiently

As the economy continues to re-open, organizations across Canada are starting to bring employees back into the office. While this is a step in a positive direction, many are struggling to provide a safe environment for their employees and clients and are turning to vaccine record collection as a solution.

## Efficiency without Compromising Privacy and Security

We understand that time is of the essence. That's why we created this new service so that you don't need to be burdened with the process of assembling an in-house program and the worry of compromising the security of your data storage. Our service allows you to scale quickly, access bilingual support, and obtain timely reporting and metrics.

All personal information is gathered safely and securely. Furthermore, we can customize your program to address any business needs and requirements pertaining to viewing permissions for your HR and Compliance teams, with access to documents collected and follow-up cadences to your team members to assure timely completion. Our goal is to minimize interruptions to your business and help your team resume normal operations amidst this evolving compliance landscape.

## Vaccine Collection Made Simple

Sterling Backcheck is pleased to introduce our new Covid-19 Vaccine Collection service, a simple and flexible way to manage and track Covid-19 vaccine documentation.

With regions across the country unveiling Covid-19 vaccination passports, Covid-19 Vaccine Collection provides a solution to help keep employees and customers safe.

Whether you're looking to bring back a handful of employees or your entire staff, Sterling Backcheck can help you resume operations quickly and safely.

# Collect Covid-19 Vaccination Documents with Ease

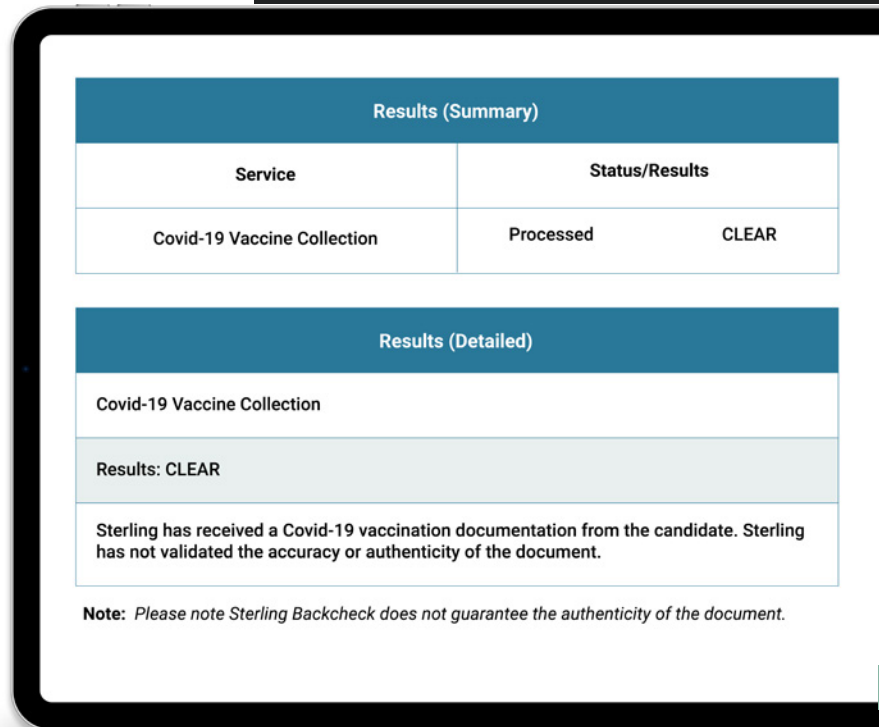

The Covid-19 Vaccine Collection service offers broad coverage across your workplace - including employees, new hires, contractors and others you do business with.

## For New Hires

For new hires, it can be requested in conjunction with traditional background screening services, such as a Criminal Record Check, to ensure a simple, unified information and consent gathering experience.

## For Current Staff or Volunteers

For those returning to the office or job site, bulk orders can be submitted so that large groups can have Vaccination Records collected in a timely and organized fashion.

## Here's How It Works:

### STEP 1

Individual declares their consent and whether they're fully vaccinated, and is asked to upload a copy of their provincial Covid-19 immunization passport/card.

### STEP 2

Sterling Backcheck reviews the name and its match with the vaccination documentation.

### STEP 3

Sterling Backcheck notifies the requesting organization upon successful collection and can make the document viewable upon request.

## ABOUT STERLING BACKCHECK

Sterling Backcheck — a leading provider of background and identity services in Canada — offers a foundation of trust and safety that spans across industries, professions, and borders.
